SANGRAM DILIP PATIL

QA Team Lead | Quality Assurance Engineer
Mumbai, Maharashtra, India | sangrampatil329@gmail.com | 8600901834 / 7972794017
Last working day: 30 Sep 2026 | Available for immediate joining

PROFESSIONAL SUMMARY

Quality Assurance professional and QA Team Lead with 4 years 7 months of experience in Healthcare and Sales CRM domains. Expertise in manual testing, functional testing, API testing (REST), regression testing, and database testing with good SQL knowledge. Skilled in writing test plans, test strategies, and bug reports with strong defect life cycle management. Working knowledge of Selenium (Python) and Playwright (TS) automation. Experienced in project management, project delivery, and end-to-end release management through Agile and Scrum methodology.

KEY SKILLS

Manual & API Testing

- Functional, Regression, Smoke, Sanity, UAT, Integration Testing
- Mobile Testing — Android & iOS | Cross-Browser Testing
- Test Plan, Test Strategy, Bug Report, Defect Life Cycle (JIRA, GitLab)
- REST API Testing — Postman (request/response, status codes, negative testing)
- Database Testing — MySQL | Good SQL knowledge (SELECT, JOIN, WHERE, GROUP BY)
- Test Design — BVA, Equivalence Partitioning

AI & Modern Tools

- GitHub Copilot, LLM modules, MCP Server setup & usage
- Git, GitHub, PyCharm, Visual Studio Code

Automation Testing

- Selenium WebDriver (Python) — Good Knowledge
- Playwright (TS) — Working Knowledge:
  - Page Object Model (POM) framework
  - Playwright AI agents & custom agents
  - CI/CD — GitHub Actions
- JavaScript (JS) & TypeScript (TS) — Good Knowledge

Tools & Environment

- API: Postman | Bug Tracking: JIRA, GitLab
- OS: Windows, Android, iOS | DB: MySQL
- Methodology: Agile, Scrum, Sprint Planning

WORK EXPERIENCE

Indigital Technologies LLP | *Feb 2022 – Sep 2026*

Junior QA Engineer *Feb 2022 – Feb 2023*

- Wrote and executed manual test cases from requirements; logged defects in JIRA with severity and priority.
- Performed mobile app testing on Android and iOS to validate core functionality.

Senior QA Engineer *Feb 2023 – Feb 2025*

- Prepared test plans and strategies; performed functional, regression, integration, API, and database testing.
- Executed REST API testing (Postman); validated SQL queries and backend data integrity.
- Maintained 150+ test cases per sprint; participated in bug triage, Scrum, and Sprint planning.

QA Team Lead *Feb 2025 – Sep 2026*

- Led a team of 4 QA engineers — sprint planning, task allocation, test case review, and quality sign-off.
- Owned end-to-end project delivery: defined test strategy, managed timelines, and ensured on-time releases.
- Handled project coordination — tracked milestones, communicated status to stakeholders, and managed risks.
- Personally executed functional testing, API testing (REST), and UAT for new projects and critical features.
- Leveraged GitHub Copilot and AI tools to accelerate test script writing and automation tasks.
- Attended client meetings for requirement gathering; translated requirements into test plans.

Key Projects:

Kribado 2.0: Risk score calculator and campaign planning app (Android/iOS) with Bluetooth thermal printer support. Used by Medical Representatives to screen patients; data synced to centralized dashboard.

DOCA: Doctor's Own Application — Web Application and Android & iOS Mobile Applications for clinic and hospital management. Modules: Appointment Booking, Digital Prescription, HRM, ERM, Staff Management. Tested across all platforms with 4 login roles: Doctor, Admin, Staff, and Patient.

Sales CRM: Android & iOS application with Backend Admin Dashboard. Tested end-to-end CRM workflows — Contacts, Calls, Meetings with GPS check-in, Quotations, Rates, Samples, Client POs, and Products. Performed Functional, Regression, API, Mobile, and Integration Testing. Validated QR-based Inventory, Job Scheduling, Automated Reminders, Reports, and cross-platform data synchronization.

Electrical Engineer | DB Facility Management | *Jun 2019 – Dec 2020*

- Maintained electrical systems; ensured compliance with safety standards and preventive maintenance schedules.

EDUCATION

Examination	Board / University	Year
BE (Electrical)	Pune University	2019
Diploma	MSBTE	2016
12th	Kolhapur Board	2014
10th	Kolhapur Board	2012

CERTIFICATIONS

- Software Testing Certification — Squad Infotech, Navi Mumbai
- Playwright AI-Powered Automation Testing Certification — Grotechminds Software Private Limited
